

Green energy & tax breaks

Installing renewable energy systems in your primary or other residence? You may be eligible for a valuable tax break. If your home improvements qualify, the Nonbusiness Energy Tax Credit can reduce your federal tax bill, dollar-for-dollar, by a percentage of your energy equipment and labor costs.

Placed in service

Lifetime dollar limit
None!

Other limits and restrictions may apply. Please contact us for more information.

* Eligible only if installed in the taxpayer's primary residence.
